

Engineering Link Project – Townsville – 26th September

We are thrilled to announce the first **Engineering Link Project (ELP) Roadshow**, taking place from Friday 26th September through to Thursday 2nd October 2025 (the September school holidays), at locations right down the east coast of Queensland, hosted by **CQUniversity**. Each location will host its own stand-alone workshop. We are proud to be associated with CQUniversity and continue to be extremely grateful to **The Queensland Government** and **Engineers Australia** for their ongoing support. And the best part – all workshops are FREE!

What is the Engineering Link Project?

The ELP is an award-winning program that inspires and empowers Year 10, 11 and 12 students to see engineering as a force for positive change. With a strong focus on the humanitarian and human-centred side of the profession, this event invites students to tackle real-world challenges affecting communities today. Through two hands-on workshops, they will collaborate with professional engineers and university staff to design solutions that improve lives, strengthen communities, and create a more sustainable future.

Event Highlights:

- **Workshops:** Students will participate in two engineering workshops, designed to challenge their problem-solving skills and creativity.
- **Workshop Times:** All workshops start at 8.45 am and finish by 3 pm.
- **Professional Interaction:** Students will have the chance to interact with professional engineers, ask questions, and receive feedback on their projects.
- **University Experience:** Participants will work in university classrooms, experiencing firsthand what it's like to study engineering at CQUniversity.

Why Should Your Students Attend?

- **Hands-On Learning:** Students will engage in practical activities that demonstrate the real-world applications of engineering.
- **Career Insights:** Professional engineers will share their career journeys, providing students with a clear understanding of what a career in engineering entails.
- **Teamwork and Creativity:** The workshops are designed to foster teamwork, creativity, and critical thinking.

Registration Details:

- **Cost:** Registration is FREE, thanks to the generous sponsorship by The Queensland Government and CQUniversity.
- **Lunch:** Students should bring their own lunch.
- **Registration:** Students are encouraged to register themselves via our website.
